

Effective Ozone Parameters on Microorganisms

BACTERIA	VIRUSES
ozone concentration 0,23 - 2,29 ppm exposure time < 20 min 	ozone concentration 0,2-4,1 ppm exposure time <30 min 
ozone concentration 3-5 ppm exposure time 60 min 	ozone concentration 0,02-0,26 ppm exposure time <1,67min 
MOLDS	FUNGI

Cristiano L. Could ozone be an effective disinfection measure against the novel coronavirus (SARS-CoV-2)? J Prev Med Hyg. 2020 Oct 6;61(3):E301-E303. doi: 10.15167/2421-4248/jpmh2020.61.3.1596. PMID: 33150218; PMCID: PMC7595067.
